I am in receipt of your letter of the 20th instant, with enclosure, relating to the above, and in noting the contents would inform you that, according to the records in this Office, the markings of the boiler, referred to in the machinery certificate, a photostat copy of which was forwarded by you, are as follows:-

Lloyd's No. 4204

W.P. 200 lb/sq.inch.

As these markings do not agree with those quoted in your letter I shall be pleased to receive your further remarks before taking any action as regards the preparation of material test certificates and a copy of the boiler plan.

Yours faithfully,

pro Secretary.

The Surveyors,

AMSTERDAM.

P.S. The boiler marked No. 6557 would appear to have been tested by The British Corporation and not this Society.
