Dear Sir,

In the Yard of Messrs. N.V. Amsterdamse Droogdok Mij, Amsterdam is a Scotch Boiler (Single ended & 3 corrugated furnaces), which according to information received from them comes from the Steam Trawler "MEWSTONE" (no. 68197 in the R.B.).

This boiler has now been purchased by the Owners of the Finnish s.s. "EERO" (no. 57541 in the R.B.) and is intended to be fitted on board of this vessel.

The following mark has been found on the boiler, stamped on the shell near the fore front, in way of the right furnace:-

B & C test
no. 6557
350 lbs.
WP 200 lbs.
S.G.W.
9-7-42

Messrs. Amsterdamse Droogdok Mij derive from papers which are in their possession that this boiler was constructed under Lloyd's supervision and enclose photostat copy of the machinery certificate which is transmitted to you.

They further ask if you could furnish them with copies of the original material test certificates and a copy of the boiler plan and look forward with interest to your reply.

We are,
Yours faithfully,

The Secretary,
London.
