ference

Dear Sir,

The Sea Transport Officer in charge at Devonport Dockyard informs me that he has received instructions from the Merchant Shipbuilding Department of the Admiralty requesting that we examine and report upon trouble stated to have been encountered in the Feed Pumping Arrangements of the above Tug, since delivery of this Vessel to this district.

It is stated that this request has been made on account of the Surveyors to this Society having supervised the Machinery during construction, and certified that the terms of the Specification had been complied with.

Before attending however aboard this vessel, I should like to receive your instructions.

I am, Dear Sir,

Yours faithfully,

Aspinwall

The Secretary,
LONDON.
