(ENGLAND)

Dear Sirs,

We beg to inform you that friends of ours, a Cherifian Company formed since some weeks has purchased the small tanker "CHANT 52" from the Cia de Navig. Lucia (Panama City) now named "LUCIA I" and flying the panamien flag.

This vessel we are told is at CARDIFF and our friends have been informed that this vessel has just been reclassified at Lloyds and has undergone certain repairs.

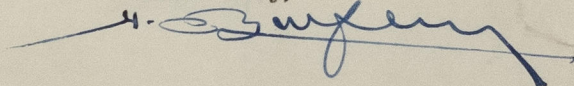

We would be very much obliged if you could confirm us that the "LUCIA I" has really been reclassified, - which class she has obtained and up to when and for what navigation. It would interest buyers to know the amount of repairs effected.

We thank you in anticipation for any information which can be useful to our friends and request you to let us know the cost of same when we will let you have by return a cheque on our London Bank.

Awaiting your early news,

We remain Dear Sirs,

Yours truly,

We are established in Paris since over 35 years as Ship Brokers for Sale & Purchase of tonnage and are Subscribers to Lloyds Register.
