17th June, 1946

Sir,

Chants 6 and 52

We have to thank you for your letter of 14th instant, reference E and are doing our best to obtain the plans you require. We have this morning received two plans as requested, which we enclose -

Bilge and Ballast Piping, Sounding and Air Pipes
Machinery Arrangement.

Referring to your letter of 31st May, reference M, particularly the second paragraph wherein you indicate you will be able to give ships 100A class (limits to be defined) could you be more specific as to what these plans are?

Yours faithfully,

For HOWARD TENENS LIMITED.
