Received from Chief Engineer Surveyor

VESSEL'S NAME

Kaulaon

Rpt.

HKg

No.

6679

The remarks of the Chief Engineer Surveyor are desired on this case for the consideration of the Classing Committee.

("The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/92.)

Type of Engine

oil engine 2 sc. la.

If Boilers fitted with forced draught

Tail Shaft. If fitted with a continuous liner

If fitted with an outside gland of

approved type

Yes

This vessel's machinery appears to have been built in accordance with the Rules and the approved plans, and it is submitted she is eligible to be classed

+LMC 3.31

It is concluded that the lubricating oil pumps are cross connected so that each pump can supply either or both main engines & that the vessel has 2 oil engine electric generator sets but the Surveyor should confirm this.
