Dear Sirs:-

M.V. "MARY SWEENEY"  
-----

Referring to your letter of March 15th.1949

It is my understanding that some survey was carried out by your Halifax Office on this ship in December of 1948, it may have been solely for the purpose of temporary extension of her then expiring certificate.

Since that time, we have a thorough examination made of the Donkey Boiler and of both the hull and main engines, by the Halifax Office of the Canadian Steamship Inspection Service.

We do not propose continuing her class in Lloyd's.

Yours very truly,

*W. Laurence Sweeney*
