Steamer "MAYFALL"

Dear Sir,

We are in receipt of your letter of the 12th instant, in connection with the deletion of the restriction "North of 36°N in Summer Seasons only" from the service limits of the above mentioned vessel.

In reply to your enquiry regarding similar amendments required for other vessels, I have to say that this will be necessary in other applicable cases of other Canadian Registered vessels of this Type.

I would mention that the Chairman of the Board of Steamship Inspection, with whom I have communicated, has no objection to the removal of this restriction.

Yours very Truly &c.
