

COPY

BY AIR MAIL

12th March, 1948.

Dear Sirs,

S. With reference to your letter of the 19th January last respecting the Steamer "MAYFALL", I have to acquaint you that this case has today received the consideration of the Committee who have issued instructions for the class to be amended by the deletion of the restriction "North of 36°N in Summer Seasons only" from the service limits.

It is concluded that a similar amendment will be necessary in other applicable cases of vessels of this type but I shall be glad to receive your remarks in this connection by Air Mail.

Yours faithfully,

Clerk to the
Classification Committee.

The Surveyors,

MONTREAL.
