-----

The following cablegram has been received from Mr.

Dobson:-

"MARY SWEENEY SUPPLEMENT NUMBER 88194 OWNERS CONTEMPLATE"  
"VOYAGE BAKERLAKE HUDSON BAY RETURNING VIA FROBISHER BAY"  
"AND REQUEST BY CABLE WHETHER GEOGRAPHICAL LIMITS CAN BE"  
"EXTENDED TO INCLUDE THIS"

The present limits of service of this vessel are "For Coasting Service between Anticosti Island and Demerara including the West Indies (Service North of 36°N in summer season only).

The proposal is to extend the service from Anticosti Island to Hudson Bay via Frobisher Bay, all of which are in the seasonal winter zone. This is considered satisfactory provided the extension applies only to the summer season.

Mr. Dobson should therefore be informed by cable as follows:-

"MARY SWEENEY PROPOSED VOYAGE BAKERLAKE HUDSON BAY RETURNING"
