

Steel Barge "SAUVETEUR NO. 7"

Hav. 6414.

Rule Dimensions 102.4' x 18.99' x 8.5'  
Scantling Nos. 858 and 2800  
Proportions. Length = 12.8 depths.

-----

This vessel was built by Messrs. J. Scarr & Sons at Howden in 1911.

With a view to classification with this Society plans and particulars have been examined in this Office and the Surveyors informed that provided the usual conditions be complied with and a favourable report received the vessel could be recommended for the class

A- "Barge for being towed".

The Havre Surveyors now forward a report giving particulars of scantlings and further report the vessel placed in dry dock and the requirements of the Rules for a vessel not built under survey complied with.

It is submitted the vessel appears worthy to be classed

A- "Barge for being towed", with record of survey 6.30 and notation of S.S. Hav. No.3-6.30.

A- (Steel) "Barge for being towed".
