QUESTION.

ANSWER.

Reverting to my enquiry of the 20th September and your reply of the 6th November last, I think it well to inform you that this vessel broke adrift during a typhoon in the night of 3/4th April last, and it is stated that the engine room and pump room were flooded.

As no further information has come to hand, I shall be glad if you will kindly inquire and let me know whether she has been refloated, repaired and replaced in commission or abandoned as a total loss by all concerned.

If a total loss, particulars of her voyage and cargo will be appreciated, if readily obtainable, for purposes of the Society's Wreck Returns.

WTR

Date: 30th July, 1940.

Owners inform us that this ship was again refloated on 21st inst, and that she has been towed to Hakodate Harbour. It is hoped to dry dock her there about the middle of September 1940 for inspection before deciding whether she will be repaired or otherwise disposed of.
