To the Surveyors at Stockholm.

Vessel's Name, Sailing Vessel "MOSHULU".

QUESTION.

ANSWER.

I have to acquaint you that to complete the 3rd Special Survey No.1, which became due at the end of July last year, the hold in way of the sand ballast requires to be examined and a hand pump fitted for the suction pipe in the fore peak.

In the circumstances I shall be glad to learn what arrangements are proposed to be made for this matter to receive attention.

L.R.

Date:— 5th September, 1940.

We have communicated with the Owner, who informs us to-day that the vessel is at present lying at Kristiansand, and there is no possibility, owing to the circumstances, to have her put into commission in a reasonably near future.

The Owner states, however, that the outstanding items of survey and repairs will be attended to before re-commissioning.
