Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

18th June, 1935.

Dear Sir,

Reverting to previous correspondence respecting the Steel 4 Mst. Bk. "MOSHULU", I have to acquaint you that in a Return dated 1st instant received from the Society's Surveyors at Vancouver this vessel is stated to be under survey for "Classification and freeboard".

I shall be glad if you will inform the Surveyors that to entitle this vessel to classification it will be necessary for the requirements of a 2nd S.S.No.3, including drilling, to be complied with, and for the scantlings, as ascertained by actual measurement at the ship, to be reported to this Office on a First Entry Report form, in order that it may be seen if the vessel is eligible for classification.

Particulars for freeboard should be reported on form C11.

I am, Dear Sir,

Yours faithfully,

James French, Esq.,

NEW YORK.
