

Mashulu

No. 4006.

The donkey boiler was constructed and fitted on board the vessel in 1922 under American Bureau Survey.

The boiler has been examined throughout & found in good condition; and all tubes have been renewed.

A plan has been forwarded, and the scantlings are in accordance with the Rules for a working pressure of 100 lb. per sq. inch.

It is submitted that
this vessel is eligible for
