# Lloyd's Register of Shipping.

71, Fenchurch Street, E.C.3.

28th January, 1938.

Dear Sir,

S. I duly received your letter of the 11th instant, with enclosure, in reference to Philadelphia Report No.7388 on the steamer "WALLACE E.PRATT" and Philadelphia Report No. 7403 on the steamer "ESSO BAYTOWN", and would inform you as follows :-

- (1) The information with reference to voltage is noted and in order.
- (2) The certificates for the generators are noted and in order. It is noted, however, that two are for the "WALLACE E.PRATT" and the remaining two for the "ESSO BAYTOWN". The serial numbers of the generators or turbines appropriate to each should be stated, so that the records can be correctly filed.
- (3) It is noted that certain cables are twin. These will be accepted in this instance, but in future cases I shall be glad if you will arrange for all departures from the Rule requirements to be first referred to this Office for approval.
- (4) It is noted the statement in the report regarding arc lamps is incorrect.

Yours faithfully,

W. Bennett, Esq.,  
NEW YORK.

Clerk to the  
Classification Committee.
