

Copy of Letter received from Mr A. Walker, Surveyor,
Wellington, N.Z., dated 13th March, 1922, by Dalgety &
Co. Ltd., Lloyd's Agents, Wellington, N.Z.

re Hopper Dredger "Kaione"

I am in receipt of a communication from Mr A. Morrison, Surveyor to the Register, Dunedin, in which he asked me to attend to the Survey of the Screw Shaft. We had received a communication from the Committee, drawing his attention to the fact that the Screw Shaft of this Dredger was due for survey, and asked to know what arrangements have been made for this inspection to take place. I immediately wrote to the Wanganui Harbour Board, and received their reply dated 2nd March, 1922, as follows:

"In reply to your letter of the 16th ultimo asking what arrangements are being made for the inspection of the Screw-shaft of the Hopper Dredger "Kaione", I have to inform you that the Dredger has been laid up for over twelve months and is likely to continue to be laid up for some time yet. Before she is put in commission again she will of course be slipped and inspected."

Yours faithfully,

(Sgd.) A. Walker
