ENCLOSURE.

25th January, 1939.

Dear Sir,

S.

With reference to my letter of the 9th November last respecting the steamer "MURITAI" I think it well to enclose herewith for your information a copy of a letter which has today been addressed to the Owners, from which it will be seen that the cause of the defects in the forward boiler is cracking due to chemical action, and that the vessel's class has been continued subject to the riveting of the boilers being examined at the next Boiler Survey.

I would add that a copy of this letter is also being forwarded to Mr. A.J. Mc.Cowan, the Society's Principal Surveyor for Australia & New Zealand, and I shall be glad if you will be guided accordingly.

I am, Dear Sir,

Yours faithfully,

George D. Lidgett

Clerk to the
Classification Committee.

George D. Lidgett, Esq.,

WELLINGTON.
