ENCLOSURE.

25th October, 1924.

Dear Sirs,

With reference to previous

H. correspondence relative to the steamer "VIRGINIA DOLLAR",
I enclose herewith for your information extracts from
New York reports Nos. 23470 and 23956 giving details
of repairs required on the hull of this vessel.

At the same time I have to inform you
that the vessel will be eligible for the records of LMC-MS 4,23
B.S. 11,23 when the front end plates of the forward
starboard and the two after boilers have been repaired
and the port and starboard MP. cylinders and pistons and
the sea connections have been examined. I may point out
that the complete boiler survey will again become due at the
end of next month and you will observe from the Limitation
List that the limit on the wing furnaces of the forward
starboard boiler is considerably overdue.

I am, Dear Sirs,
Yours faithfully,

The Surveyors,

GENOA.

Assistant to the Secretary.

COPY.

2. s.s. "VIRGINIA DOLLAR".

P.S:- I have also to point out that in August 1923 the Manila Surveyor recommended that repairs should be carried out to the tween deck plating at the next special survey.
