- 2 NOV 1950

Dear Sir,

ANSD.....

"STAR OF THE REALM"

With reference to the case of the above vessel we have to report that, on a routine visit to Shoreham, it was found that she is in a completely shut down condition.

Considerable deterioration was noted in the steelwork, particularly above deck, due to lack of maintenance and several wasted and holed places observed in the Engine Room Casings.

Further enquiries from the Solicitors representing the Receivers have resulted in no definite information as to the vessel's future, and the matter is therefore submitted for the consideration of the Committee.

The Load Line Certificate No. 27794, issued on the 22nd May, 1948, is returned herewith.

Yours faithfully,
THE SURVEYORS,
