

S.S. "CHRISTY PAYNE".

The New York Office has forwarded a verification form giving the freeboards now assigned to this vessel by the American Bureau under the U.S. Regulations.

The vessel is classed 100A1, Shelter deck with freeboard, Carrying petroleum in bulk; and the freeboards assigned are the minimum permitted by the B.T. Regulations.

From estimates made in the case of the sister ship "LIVINGSTONE ROE" it appears that the freeboards now assigned by the American Bureau are the minimum permitted by the U.S. Regulations.

It is therefore submitted they be accepted as complying with the conditions of classification.

The records of freeboard and draught in the Register Book should be amended in accordance with the particulars given on the attached form, and the Board of Trade should be advised.

It is noted from Mobile Report No. 959, dated 8.6.3
