Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

Enclosures.

3rd September, 1921.

S.

Dear Sir,

With reference to Greenock Report No. 17876 on the Steamer "ERA", it is concluded that the watertight doors, if any, are in efficient working order, and that the thickness of "G" strake of plating in way of the bridge is .56" as approved, but I shall be glad to learn whether this is so.

I enclose the certificates on the hull and machinery of the vessel. The certificate on the hull should be handed to the Builders, if the case is in order.

I am, Dear Sir,

Yours faithfully,

Assistant to the Secretary.

The Secretary,

GLASGOW.
