8th September, 1948.

S

Dear Sirs,

I have to acquaint you the Society's Surveyors at West Hartlepool state that the steam trawler "ELLENA" which has been under Special Survey at that port for some time has now been sold to Mr. Alexander Hay, 34, Westholm Avenue, Aberdeen, by whom instructions have apparently been given for the vessel to be towed at once to Aberdeen, and the Surveyors have been unable to obtain any information regarding the continuance of classification.

The Surveyors state that the Special Survey was practically complete, but some repairs to decks and shell plating have not been completed. No request for any certificate to cover the voyage to Aberdeen has been received by the Surveyors.

I shall be glad if you will take the matter up with the new Owner and let me know his intentions.

Yours faithfully,

The Surveyors,
ABERDEEN.
