EC/GBHM.

ENCLOSURE.

21st February, 1933.

Dear Sirs,

I have to acknowledge the receipt of your letter of the 11th instant respecting the 2nd Special Survey No.3 now being carried out at your port on the steamer "PANIS", ex "Tosto", the contents of which have been very carefully noted.

The case has been under consideration today, and so far as the results of the drilling of the shell plating above the light water line ^{are} ~~is~~ concerned, I have to inform you that, provided :- K strake, plates Nos.11, 12, 13 & 14 on port side and ^{doubled} Nos.7, 11, 12, 13 and 14 on the starboard side be renewed or doubled; J strake, Nos.4, 6, 12 and 13 on the port side and Nos.3, 4, 6, 7, 13, 14 and 15 on the starboard side be renewed; H strake, Nos.1, 2, 3, 4, & 7 on the port side and Nos.2, 3, 4, 7 & 13 on the starboard side ~~be~~ renewed or doubled, the Committee will be prepared to accept the same.

In view of the scantlings of the framing as given in your letter, it is considered that compensation should be to the framing fitted/in the holds as follows :- In the after hold, four web frames, and in the forward hold six web frames. These web frames should be of a depth of 21 inches and should be

COPY.

S.S. "PANIS".

stiffened on the inner edge by a substantial face bar and bracketed top and bottom.

I have also to add that in view of the particulars of the intercostal stringer plates and face angles in the holds it is considered that those referred to in your letter should be renewed.

Further, if you consider it necessary, compensation should be fitted to locally wasted frames to your satisfaction.

I have to point out that the above have been dealt with on the assumption that "L" strake (in your letter) is the sheerstrake.

In view of the statement in your letter regarding the frames and stringers in the holds, I cabled you today as per translation enclosed herewith, which is hereby confirmed.

The cost of this cablegram is 11/-, and your account has been debited with this amount.

I am, Dear Sirs,

Yours faithfully,

Copy to Mr. Bradshaw.

Clerk to the
Classification Committee.

The Surveyors,
PIRAEUS.
