

( C O P Y )

Shanghai, 7th October, 1947.

Messrs. Foo Ming S.S. Co.,  
233 Nanking Road,  
Shanghai.

Dear Sirs,

S.S. "TA LUN"

The above vessel was visited today whilst lying at her berth in this port when it was found that major alterations and repairs were being made to the structure of the vessel.

Kindly note that the rules of this Society require any proposed alteration to a Lloyd's classed vessel be approved before work is done and that all work thereto must be done under the inspection and to the entire satisfaction of the Surveyors.

We would be pleased therefore to receive 3 copies of each drawing showing the new general arrangement of the vessel and the details of the alteration, so that they can be submitted to London for approval.

It would be as well to inform you that any further work done to the vessel without approval may require to be altered and or removed to comply with our requirements.

Yours faithfully,

(signed) J.A. Stewart

For the Surveyors.
