

Ham No.17494.

Two Sets of Four Cylinder Two Stroke, Single Acting Diesel Engines, together with 4 Injection Air Receivers and 2 Starting Air Receivers, made by Messrs. Motoren Werke Mannheim A.G. Vorn Benz under the Survey of the Germanischer Lloyd.

These engines are intended to be fitted into a vessel at Hong Kong and with a view to classification, they have been opened up and examined and satisfactorily reported upon.

IT IS SUBMITTED that when the engines have been satisfactorily installed in a classed vessel, tested under service conditions, and the spare gear required by the Rules supplied, they will be eligible for a record of L.M.C. (with date) without the distinguishing mark *.

It is further submitted that a copy of the report and certificate be forwarded to the Hong Kong Surveyors for their information.
