QUESTION

ANSWER

As a result of a General Examination held at London in December last, the Special Survey was postponed until July, 1962 and I shall be glad to learn what arrangements the Owners have in hand for this inspection to be carried out.

To complete the Auxiliary Boiler Survey due at the end of December last, both boilers remain to be examined under steam, the safety valves to be adjusted to working pressure, and the oil fuel burning installation to be adjusted under working conditions and the Owners' proposed arrangements regarding these items will also be appreciated.
