Sir,

Your letter dated 21st inst., has been duly received with thanks. We regret to state that the above-mentioned vessel has been chartered for coastal transportation in Okinawa under U.S. military service since March last.

By the agreement, we could not make any arrangements regarding her special survey and boiler survey until the end of this year.

We sincerely hope that our present difficulty will receive your kind consideration and understanding and the survey be postponed after the expiration of her charter. We remain,

Yours sincerely,

Manager, Operation Dept.
