15th September, 1947.

Dear Sirs,

Tug "VINCIA".

H. With reference to my letter of the 27th May last, I shall be obliged if you will kindly let me know what definite arrangements have now been made for this vessel to be submitted to the survey necessary for class maintenance.

In connection with the Boiler Survey held in June last, it is concluded that arrangements are now in hand for the boiler shell plating in way of the blow down valve to be dealt with, as recommended at that time.

Yours faithfully,

Clerk to the
Classification Committee.
