

S.S. "Lima" Lisbon rpt N° 1128.

This vessel was built and classed with Germanischer Lloyd in 1907.

The Lisbon Surveyor now reports that the machinery has been examined (with the exception of the screw shaft) and generally found in good condition. The furnaces of the port main boiler have been repaired by patching same, and the Surveyor recommends that new furnaces be fitted to this boiler as soon as they can be obtained.

It is submitted that
this vessel is eligible for
THE RECORD. G.L. 9-18 subject to the screw

shaft being examined and furnaces of port main
boiler renewed as soon as they can be obtained
