Lloyds Surveyors,
GLASGOW.

Sirs,

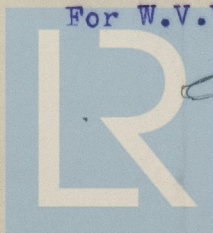

We enclose herewith letter from the Owners representative of the S.S. "Olivine " and "Tourmaline" stating that they are supplied with one feed and one bilge pump in these vessels. We trust this will be considered satisfactory, and that the matter may now be in order.

We may say that the "Golden Sceptre" referred to, is built by Mackie & Thomsons number 329, our Engine No.207, vessel for which we have been ordered to be launched within the next few days. The other vessel referred to is Mackie & Thomsons S.S. No.331, into which is to be fitted our engines No.212.

Kindly return the letter after perusal.

Yours truly,

For W.V.V.Lidgerwood,
