

18 NOV 1955

"GENEVE"

Refer letter dated 11.11.55
from the Secretary to the Scottish Committee
enclosing copy of Owners' Representative's
letter dated 7.11.55 advising Owners' decision
to transfer the class of this ship to the
American Bureau of Shipping owing to the difficulty
of getting material to suit Lloyd's requirements
in the present conversion from a tanker to an
Ore Carrier.

Before this case receives
consideration IT IS SUBMITTED the GREENOCK
Surveyors, under whose survey the conversion *through Glasgow*
was being carried out, be requested to amplify
the remarks contained in their letter of 9.11.55
and give the reason why there was difficulty
in getting material to suit Lloyd's requirements, *as reason,*
which alone is given by Owners' Representative *for*
the transfer of class.
