

25th November, 1949.

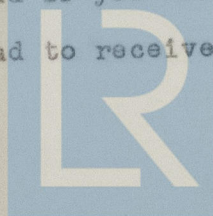

BILBAO.

10570,576,577. As recommended.

10566. "MANUEL CALVO" The contents of your report have been noted, but in view of the further wasted shell plating now found, I shall be glad to receive confirmation that arrangements are in hand to complete the Special Survey not later than the end of December next as previously agreed.

10569. "SANTO DOMINGO" As recommended. It is concluded that, in addition to the items enumerated on your report "To complete the Special Survey," the fore and after peak tanks remain to be examined internally and the hand pumps (if any) examined and tested, but I shall be glad if you will confirm this.

"TIO PEPE" I shall be glad to receive a reply to my letter of the 4th instant.
