Sir,
In reply to your clashing letter of the 8th inst. regarding the Statutory tests of the chain cables of the S.S. "Rabenfels", Newcastle report No. 46205, I have to state that a regrettable clerical error was made and that they should have been given as 86 1/8 tons not 80 1/8.

I am, Sir
Your obedient servant—
G. H. Mares
