G. Gabrielsen,
Farsund,
7th April, 1928.

Dear Sir,

S.S. "BRATHOLM"

I have received your letter of the 29th ultimo and thank you for the same.

The Boiler Survey was carried out last December where the vessel was lying in Barry Roads. On account of the very bad state of the freight market, I thought that as the vessel had a cargo on board, the outstanding matters of the Boiler Survey at Glasgow could be carried out at a convenient time when the whole survey might be completed. Lloyd's Surveyor was therefore not called in.

As a convenient opportunity has not yet arrived I regret that I have not before informed you to withdraw the class from Lloyd's Register. I always received proper attention, so that it is only expenses which drive me to withdraw the class.
