Dear Sir,

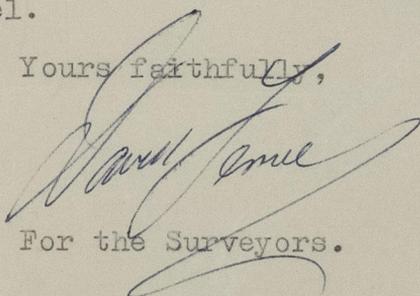

Motor Tanker "NUCULANA" now "AVE"  
No. 73435 in the Register Book.

With reference to the copy of your letter of the 20th August addressed to the surveyors Bilbao regarding the classification surveys of this ship, I have to inform you, that the vessel is at present undergoing conversion for the carriage of minerals in bulk at ASTANQ, El Ferrol.

Previously, when making enquiries regarding the ship, we were informed that at the owners request, alterations would be carried out under the inspection of the Bureau Veritas, who had already carried out a similar inspection on another tanker for the same owner.

However, during Mr. Jaroszynski's visit to this district last week, we were invited to see the progress of conversion work and from what was seen, I can state that from the points of view of the workmanship and design it would be impossible for us even to consider taking any further interest in the vessel.

Yours faithfully,

For the Surveyors.
