R

Dear Sir,

Ans'd.....

We beg leave to refer to your letters of the 23rd. August, 1961, concerning the "BURY" and "NAVEM MONICA" and have to report that the Owners hope to place matters in order by drydocking the "BURY" in December next, at which time the Screwshaft and Boiler Surveys will also be effected.

Regarding the "~~NAVEM MONICA~~", the same Owners state that they will endeavour to carryout the B.S. towards the end of November next, but that they can only programme the drydocking and screwshaft Surveys for about April, 1962. As the ship is trading only in Brazilian waters they hope that their proposal may have your favourable consideration.

We shall, therefore, be pleased to have your instructions.

Yours faithfully,

E. H. [Signature]

For the Surveyors.
