s under review

This ship has the notation "Surveys overdue 9.58"  
Special Survey due 9.58  
Main Boiler Survey due 8.59  
Steam Pipe Survey due 9.60

ending items  
ly held)

Hull subject:- See endorsement 1.9.58.

nements  
agreed

The class was expunged for non-compliance of the requirements of the Regulations on the 8th July, 1958, and re-instated on 12th September, 1958, when postponement of the Special Survey until 9.59 was approved. On 18th September, 1959 the Committee were unable to agree to a proposal to postpone the Special Survey beyond the expiration of the year of grace, and a notation of "Class suspended, Surveys overdue 9.59" was assigned. This was amended to "Surveys overdue 9.58" on 28.1.60.

proposal

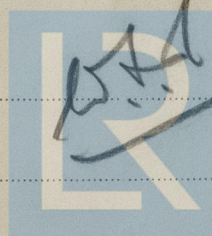

The Rio de Janeiro Surveyors state that the ship has been drydocked and the Special and Engine Surveys held. The Owners desire to postpone the recommended hull repairs for 18 months to 2 years and request that the ship might be considered for a Modified Special Survey record for 24 months. The Surveyors add that the Owners have had to make drastic changes at their drydock and repair yard to include their new building programme for classed ships.

Technical  
recommendation

*Submitted a modified S.S. notation might be recommended provided Surveyors satisfied that all necessary repairs have been effected for the desired period.*
