

"JULIAN".

Mmo.Rpt.No.2189.

This vessel built at Gothenburg under special survey is intended for Norwegian Owners. Survey work was commenced in August, 1941, and the survey has now been completed except for the examination of the machinery under working conditions.

In view, however, of the order issued to the Society by the Trading with the enemy Department of the Treasury and Board of Trade, in their letter of 10.2.43, and in their further letter of 27.4.43 concerning vessels for Norwegian Owners, it is submitted that no class should yet be assigned.

In the case of the "DOVREFJELL" recently built at Gothenburg, the Norwegian Shipping & Trade Mission stated it was their desire to have the vessel completed as far as possible before the cessation of hostilities, but there was no question of the vessel engaging in trade until that time.

It is concluded the present case is in a similar category.
