veys due Special Survey due 5.55.  
Last docking 9.53.  
Continuous Survey of the Oil Engines behind hand.  
"Laid up surveys overdue" assigned 17.6.55.

osed to be

urks On enquiry of the Owners in December last they stated that the vessel had been sold to Senor E. Escobar of Ecuador.

Various enquiries have been made of Lloyd's Agents in Lima, Peru who referred the matter to Lloyd's Agents at Guayaquil.

A letter has now been received from Guayaquil stating that although the vessel had been laid up from December 1953 to December 1955 since at that time the vessel has made four trips to Talara. It is further stated that Mr. Escobar spoke to Mr. Haman of Balboa on his visit to that port in December and it was suggested that the vessel should go to drydock in February. This was not possible and the vessel has again been laid up since that month.

Surveyors' recommendations continued.....

"EL BUARO"

The vessel is at the moment having her motors changed and it is requested that the Special Survey be extended until such time as the vessel has the new engines installed.

Later the Owner has  
stated he has decided not  
to have overdue surveys held.
