Principal Surveyor

NEW YORK

Dear Sir: "ESSO BACHAQUERO"

I am in receipt of your cable in connection with the requested Boiler Survey of the subject vessel for which I thank you.

In this connection, after contacting the Owners' Representatives at Amuay Bay, it was again stated that no arrangements were being made or proposed to deal with the Special Survey of the Hull or Machinery of the vessel.

Therefore, I suggested the Boiler Survey should be postponed until arrangements were made to deal with the outstanding surveys.

The vessel is at present laid up at Amuay Bay, but no information could be obtained as to the future disposition of the vessel.

Yours faithfully,

W.D. Wardle
