which
This vessel ~~was~~ classed with the Germanischer Lloyd
is now under survey at Hull with a view to being classed 100A-
in the Society's Register Book.

The scantlings as shown on the attached midship section
have been approved for this class and the Surveyors now forward a
report of the drillings of the shell plating which have been made for
the purpose of verification of the approved scantlings.

The results of these drillings have been examined and
appear to be satisfactory.

It is submitted the Hull Surveyors be informed to this
effect.
