"SAN GIORG M"

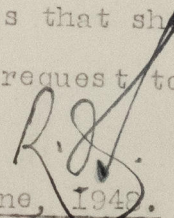

The last Special Survey on this vessel which is now over 40 years old, was held in 1937 and the validity of the "Examined" record expired in September last.

In December the Owners asked for an extension for the inter period before submitting the vessel to Special Survey at this was declined, the Committee requiring the survey to be held at once.

She was then laid up indefinitely and in all the circumstances the Committee expunged the class with a red line February last.

The Owners now write to the effect that they wish to have the vessel during the summer for their wine trade between Italy, Greece and Malta and would like an extension of class for four months subject to a general inspection by the Malta Surveyor, by the end of which time they hope to put the steamer through Special Survey.

In forwarding this request the Malta Surveyor points out that he has already explained to the Owners that she has no valid classification, but they repeated their request to appeal to the Committee.

  
9th June, 1949.
