

REPORT ON OIL ENGINE ELECTRIC GENERATOR SETS.

No. 24353

29.11.1950 When handed in at Local Office

15 NOV 1950

Port of

Received at London Office

17 NOV 1950

Date, First Survey See Rpt. 4b.

Last Survey

Number of Visits

held at GRIMSBY.

Screw vessel M/V. "AFRICAN QUEEN" (ex "BADGER")

Tons Gross 1966
Net 1252

by Havn

By whom built A/S Rodby Havns Jernskibs Yard No. - When built 1920

Development Corporation.

Port belonging to Gibraltar.

made at Lincoln

By whom made Ruston & Hornsby, Ltd. Contract No. 12/490180-1-2.

made at Glasgow

By whom made The Macfarlane Eng. Co. Ltd. Contract No. - When made

Engine Brake Horse Power 100 per engine Nom. Horse Power as per Rule - Total Capacity of Generators 187.5 Kilowatts.

ES, &c. Type of Engines See Nottingham Rpt. No. 748 (4c.) 2 or 4 stroke cycle - Single or double acting -

in cylinders. - Diameter of cylinders - Length of stroke - No. of cylinders - No. of cranks -

adjacent to the Crank, measured from inner edge to inner edge - Is there a bearing between each crank -

Weight - Means of ignition - Kind of fuel used -

as per Rule - Crank pin dia. - Crank Webs Mid. length breadth - Thickness parallel to axis -

as fitted - Mid. length thickness - shrunk Thickness around eyehole -

as per Rule - Intermediate Shafts, diameter as per Rule - Thickness of cylinder liners -

as fitted - Means of lubrication -

other arrangement fitted to prevent racing of the engine when declutched - Are the exhaust pipes and silencers water cooled or lagged with non-conducting material -

Pumps, No. Two. Is the sea suction provided with an efficient strainer which can be cleared within the vessel Yes.

1 Pumps, No. and size Two. 1 - 557 gals. per hr, 1 - 4 tons per hour (spare)

rs, No. - No. of stages - Diameters - Stroke - Driven by -

Pumps, No. - Diameter - Stroke - Driven by -

IVERS: Have they been made under Survey Yes. State No. of Certificate C.10197

which can be isolated, fitted with a safety valve as per Rule Yes.

surfaces of the receivers be examined Yes. What means are provided for cleaning their inner surfaces Inspection doors.

arrangement fitted at the lowest part of each receiver Yes.

Air Receivers, No. - Cubic capacity of each - Internal diameter - thickness -

ded or riveted longitudinal joint - Material - Range of tensile strength - Working pressure by Rules -

receivers, No. 3. Total cubic capacity 15 cu. ft. Internal diameter 18" thickness 5/16"

ded or riveted longitudinal joint Seamless Material Steel Range of tensile strength - Working pressure by Rules 300 lbs/sq. in.

GENERATORS: Type See Nottingham Rpt. No. 748.

ply - volts. Full Load Current - Amperes. Direct or Alternating Current -

rent system, state the periodicity - Has the Automatic Governor been tested and found as per rule when full load is suddenly thrown on and off -

they compounded as per rule - is an adjustable regulating resistance fitted in series with each

- Are all terminals accessible, clearly marked, and furnished with sockets -

d or shielded that they cannot be accidentally earthed, short circuited, or touched - Are the lubricating arrangements of the generators as per Rule -

are under 100 kw. full load rating, have the Makers supplied certificates of test - and do the results comply with the requirements -

are 100 kw. or over have they been built and tested under survey -

approved plans forwarded herewith for Shafting - Receivers - Separate Tanks -

(If not, state date of approval)

EAR The vessel has been provided with spare gear in accordance with the Rule

ents and to cover extended voyages. For full particulars please see attached list.

going is a correct description,

Manufacturer.
