

The condition of any of the following items is to be described as "good" only when the part has been examined, found or placed in good condition, and is considered the due date of the next Periodical Examination. Where it is considered that re-examination or repairs should be effected before the due date of the next Periodical Examination, the distinguishing mark thereon should be inserted against the item and the date of the next Periodical Examination.

Class is subject to Ballast Pump water end casting being renewed before the completion of the present Special Survey and to the donkey boiler shell plate repairs being further examined by 10.57, also to Windlass first Reduction Pinion being renewed at earliest opportunity

29 JUL 1957

Chief Engineer Surveyor

Received from Chief Engineer Surveyor
