No. 9158

The remarks of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

("The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/32.)

Nature of Survey

The class is subject to A2 from aft starboard side E.W. 11,29, 3,32 and 3,34 and the outer plates E.W. 1,35 being specially examined at the next dry docking.

A S.S.No.2, due 4,36, after an early No.3, has been partly held.

Repairs are required.

A proposal to fit a manhole in the watertight bulkhead between the after and forward holds has been approved - see endorsement 14.11.36.

The Marseilles Surveyors now report the ship examined afloat, the Special Survey completed and repairs effected to bunker plating, stiffeners etc.

The vessel has now been fitted with portable tanks for the carriage of wine in accordance with approved plans and the manhole ~~door~~ in the watertight bulkhead referred to above, has not been cut.

The portable tanks have been satisfactorily tested. P.T.O.

The Surveyors state the notation 'Cargo battens not fitted' may now be deleted from the Register Book and they recommend the E.W. repairs to shell plating be specially examined at the next dry docking.

It is submitted the vessel appears worthy to remain as classed with record of survey 10,36 and notations of S.S.No.2-36 and 'Carrying wine in portable tanks' subject <sup>as above</sup> ~~as recommended but without other condition.~~
