RECEIVED

Dear Sir 6 - AUG 1957

Ans'd

"IOANNIS INGLESSIS"

In reply to your letter of the 29th July last, regarding our Rpt.8 no.22350 on this ship, we wish to comment with reference to the points raised in the enclosure as follows :-

- (1) The After Peak tank was not sighted under test, although an internal examination of same and the examination and testing of the Fore Peak tank were carried out before cargo discharge. This item therefore remains to be dealt with.
- (2) No.4 d.b. P & S : the Owners remarks are noted and it is not doubted that this item was dealt with as stated, but this office was not advised of any test and neither this tank nor the Deep tank in way were sighted under pressure.
- (3) d.b. dry tank - this tank was internally examined and reported in Table 1, but was erroneously included in the items to complete S.S. The error is regretted and this item should be removed from those outstanding for completion of S.S.

Yours faithfully,

(J.D. Sutherst)

The Secretary
LONDON.
