

Lloyd's Register of Shipping,

3, Wilhadistrasse,

Bremen, 18th March, 1933.

ENCLOSURE.

Dear Sir,

Having reference to previous correspondence of the Bremen and Hamburg Offices with London regarding the survey of freeboard under the provisions of the International Load Line Convention to Norddeutscher Lloyd vessels, I beg to enclose herewith Mr. W. Meyer's Freeboard Report for the s.s. "AUGSBURG".

For the particulars of the moulded displacement at 85% of moulded depth and the external displacement for various draughts, I had applied to the Society's Surveyors in Newcastle and requested them to obtain these particulars from the Builders of the vessel, and communicate them to us. They have now stated in a letter that the Builders are out of business and that the particulars desired are not available.

A Request form 9 for this vessel, filled in and signed by the Owners, was forwarded with my letter of the 14th January last, and I shall feel obliged if the freeboards for this vessel could be assigned by the Committee.

I am, Dear Sir,
Yours faithfully,

A. Carstensen

The Secretary,
LONDON.
