The Second Special Survey No. 3 became due on this vessel in June 1927. The Boiler Survey, which became due in September 1927, has been partly held, and to complete this inspection the donkey boiler survey requires to be carried out. A limit on the main boilers expired at the 1 of June last.

and we will The Rotterdam Surveyors reported in June last at Ancona the Steamer had left that port for Ancona without having under survey, and in view of this and of the fact that year of grace expired at the end of June, the Owner asked to make definite arrangements for the Boiler Survey to be completed and the repairs to the main boilers effected before the vessel's arrival at Ancona, and also for the Second Special Survey No. 3 to be held without further delay.

In reply the Owner stated that as the vessel was chartered for a further voyage, he was unable to submit her for inspection as desired, and that for reasons of economy he was obliged to abandon the Society's class, having in mind the severity of a Second Special Survey No. 3.

In the circumstances, the Classing Committee, who had the case again before them on Friday, the 27th ultimo, decided to give instructions for the vessel's class to be expunged from the Register Book with a red line ( 7.28 ), and the Owner has been informed accordingly.
