ITALIAN.

28th June, 1928.

Dear Sir,

With reference to your letter of the 18th instant addressed to the Society's Surveyors at Naples respecting the Steamer "EDERA", I am directed by the Committee to remind you that to complete the Boiler Survey of this vessel which became due so long ago as September 1927 the Donkey Boiler requires to be surveyed in its entirety; further, the period of time within which the main boilers require to be repaired will expire at the end of this month, when the year of grace allowed by the Society's Rules for the completion of the Second Special Survey No.3 will also expire.

It would appear from a letter received recently from the Society's Surveyors at Rotterdam that the vessel has left that port for Ancona without the Boiler Survey being completed. In the circumstances, the Committee desire me to say that they must ask you to make definite arrangements for this to be done and the repairs to the main boilers to be effected on the Steamer's arrival at Ancona and for the Second Special Survey No.3 to be held without further delay, and I shall, therefore be glad to learn for the Committee's

information what steps you propose taking in the matter.

I am, Dear Sir,

Yours faithfully,

pro Secretary.
